

If your organization uses Microsoft:

If you're using Outlook.com or Microsoft 365 and are using the Outlook.com website, the Outlook mobile app, or the Mail app in Windows 10, you can read and reply to encrypted messages the same way you do with unencrypted messages.

farettes	Mar 2	Sample December Small

Di man P (sana an ≥ facture Di lancitari Di lancitari		Chan (Reve), MAX Manage, Manager, Manager, Mithan Manager, Market Schlark, Mithan Market, Market, Market, Mithan Market, Market, Market, Mithan, Market,	ellines and progenities to buy discussion data and or and or any day ma entro the task particular and an electric to any set

If your organization uses an alternate email service:

If the message was sent to a non-Microsoft account, you'll receive an email message with instructions for how to read the encrypted message. Clicking on 'Read the message' will send you a temporary code via email. Note that if you have any issues opening the email, attempt to open the link in a private/incognito window. If the issue persists, you can reply to the original message, and it will send a response to the sender.

<u>Tip:</u> HEALTHeLINK's encryption messages will always be branded as depicted below. If you ever get an email that looks suspicious, reach out to someone at HEALTHeLINK directly, preferably via phone call, to confirm the message is legitimate.

To open the message, click on "Read the message"

It will then prompt you to sign in with a one-time passcode:

Encrypted Message		
cklimek@wny	yhealthelink.com has sent you a protec	cted message
Γ	Sign in with a One-time passcode	
_	Need Help?	-
	Privacy Statement	

The passcode will be sent to your email inbox, once received, enter it below:

We sent a one-time passcode to
Email Address
Please check your email, enter the one-time passcode and click continue. The one-time passcode will expire in 15 minutes
One-time passcode [74880288] □ This is a private computer. Keep me signed in for Q hours.
The new one-time passcode was successfully sent.
Continue
Didn't receive the one-time passcode? Check your spam folder or get another

Then, you will be able to view and reply to the secure message:

Please note that these emails will automatically be deleted after 30 days.
